

Quality Service Pricing™

Plumbing Sample

Thank you for your interest in **Quality Service Pricing (QSP) for Plumbing**. Please review this sample to gain a better understanding of the key features of the QSP system.

Included in this sample:

- QSP Plumber Pricing Guide Table of Contents
- Example pages from the Plumber Pricing Guide. Please note prices are displayed at \$0 but will reflect your customized rates when your order is placed.
- A comparison pricing chart of common repairs at labor rates ranging from \$100-\$260 per hour. Comparison prices are calculated using Option 2 parts markup. Contact Your Regional Consultant for more information.

In addition to the best-designed pricing guides on the market, your Quality Service Pricing system includes:

- Access to the fully managed QSP Repairs & Parts database
- Seasonal Updates at no additional charge (up to 4x per year)
- QSP Companion Software, an indispensable application for customizing your QSP system and locating important repair information
- Access to the MyQSP Customer Support website
- An unrivaled support package that includes consulting, on-line training, tutorials on CD, toll free telephone support, and more to ensure your system is optimized to suit your service business needs
- A subscription to our Profit Opportunities eNewsletter

We are confident that Quality Service Pricing will be an integral part of your service department for many years to come – improving customer satisfaction, plumber performance, and department profitability all at the same time.
